

## Features

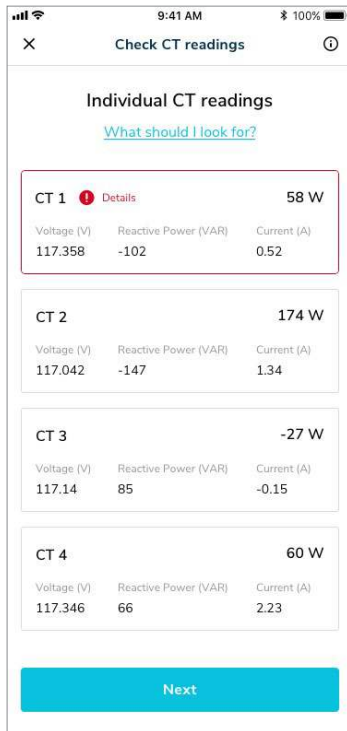

Troubleshoot connection issues on-site

Check customer WiFi connectivity remotely

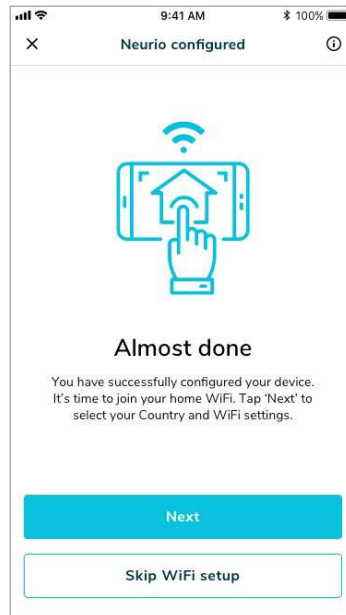

Automatically add installs to your account

## New App: Neuroio Installer

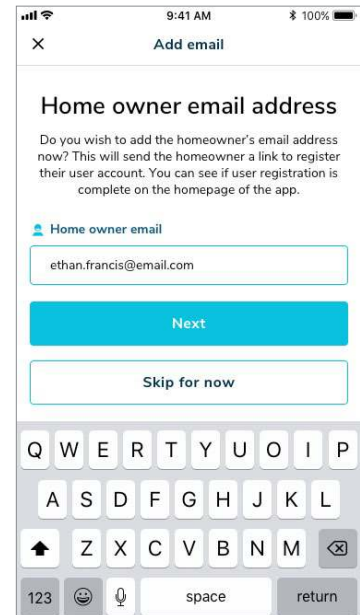

Introducing Neuroio Installer, a new app for professional installers that streamlines the installation of the Neuroio Home Energy Monitor and helps keep customers connected. To make sure installs go smoothly, the app allows you to complete meter installations and check for accuracy without accessing a homeowner's WiFi. Once an install is complete, you can check to make sure your homeowner has successfully registered their user account and check their WiFi connectivity status.
